Tuesday's Election Will Decide Power Franchise

A special election will be held Tuesday in Bay St. Louis to seek voter approval of an adopted city ordinance which grants a new franchise to Mississippi Power Company.

The 20-year, non-exclusive franchise was adopted by the Bay St. Louis Commission Council but must be put before the voters. The proposed

franchise is an agreement with the municipality under which Mississippi Power Company conducts its operations within the corporate limits and which provides for the use of streets and alleys for the company's equipment and facilities.

Granting of the new franchise has no effect on the rates, according to Perry Gibson, local Mississippi Power Company manager. "This franchise has nothing to do with rates," Gibson noted, "which are subject to the exclusive regulation of the Public Service Commission and not by the city."

Former MEC Director Plans Lecture Here

As part of its continuing series of presenting lectures on subjects of importance to the county, the City County Library Association will sponsor a lecture on Wednesday, November 17th by Joe F. Tatum, an active member of the Mississippi Economic Council.

JOE F. TATUM

Mr. Tatum, who is a prominent business executive from Hattiesburg, Mississippi, will discuss the functions and purposes of county government. The talk by Mr. Tatum is scheduled to begin at 8 p.m. and will be held in the auditorium of the Bay Junior High Auditorium.

Formerly a director of the Mississippi Economic Council, Mr. Tatum now serves the committee chairman of a Special Committee on Human Resources. Both in his work with the Economic Council and in business Mr. Tatum has become thoroughly conversant with the extreme importance of the role of a county government. He is fully aware not only of what the county government has to do in determining the destiny of its area, but also the role that the residents in the area should play in relation to the government.

In the case of Mississippi is the Board of Supervisors. Civic leaders in both Bay St. Louis and Waveland, and throughout the county, regard Mr. Tatum's subject as being extremely timely in view of the fact that in January of 1972 virtually a totally new Board of Supervisors will take over as the governing body for the next four years. Of the five members of the present Board of Supervisors, only Dolph Keller

PRECINCTS
Residents in West Bay must vote at Bay Senior High School. South and North Bay must vote in City Hall.

Terms of the new franchise, which would, if approved, supersede the franchise now in effect between the municipality and the power company, are virtually the same as in the present one. However, each community will receive a \$0 percent increase in its franchise payment from Mississippi Power Company.

Mississippi Power Company now pays to each municipality two percent of the revenues the company receives from all retail electric power sales from within the municipality. Under the new franchise, this payment would be increased to three percent of the company's revenues from these sales.

"We are grateful to the voters of Waveland for approving the franchise," said Gibson, "and we earnestly solicit the vote of the people in Bay St. Louis." The polls will be open from 7 a.m. to 6 p.m. City election commissioners are William Hilliker, Morris Miller and Gen. John Cook.

Parents Urged To Attend

Scout Meeting

In a special plea, Terry Feeney, president of the Waveland Civic Association, urged all parents of boys of Boy Scout age to attend the special meeting of the Waveland Civic Association at the Bay Junior High School on Thursday, Nov. 11, at 8:35 p.m. Feeney explained that Hoyt Hunt, and other leaders of the Boy Scouts in the New Orleans area, would be on hand to give a vivid verbal and slide presentation of plans for utilizing the new 1,500 acre Boy Scout camp site which was only recently purchased by the Boy Scouts in Hancock County.

"This meeting," Feeney said, "is of the utmost importance to all parents with children of scout age and to all teachers who have pupils that fall in that classification."

Feeney pointed out that millions of dollars will be spent to make this new campsite one of the most modern and complete in the entire south. The old site, at Camp Salmen, could accommodate less than 3,000 boys during the summer months. The new site will be able to accommodate as many as 30,000 or 40 times as large as the old site. And what is even more important, the scouts will begin using the new campsite in the summer of 1972.

No admission charge and Feeney added, "we will make no solicitation of funds of any kind at this meeting."

BAY FIRE CHIEF
Mayor Warren Carver of Bay St. Louis today officially verified the appointment of Floyd Page as chief of the Bay St. Louis Fire Department. Page has been a regular member of the fire department for the past nine years. The mayor has also announced that Payard has joined the fire department as a regular full time member.

Miss McIntyre Named 1972 Bay Junior Miss

Sharon McKenna, 17, daughter of Mr. and Mrs. John McKenna of Bay St. Louis, Yvonne Jackson, daughter of Mr. and Mrs. Charles Jackson of Clermont Harbor, was named second alternate. Both will graduate in May from Bay Senior High School.

The scholastic award was presented to 17-year old Judy Dahn, daughter of Mr. and Mrs. John C. Dahn of Waveland. Two of the contestants, Misses Elizabeth Willis and Peggy Ann Haas, both seniors at Hancock North Central, received the Miss Congeniality award, selected by the other entrants. Miss Willis is the daughter of Mrs. Elizabeth Burras of Pearllington, and Miss Haas is the daughter of Mr. and Mrs. Wesley Haas of Kiln.

Miss McIntyre will compete in the state pageant in Meridian early next year.

Fifth Trade Seminar Slated

Hancock County's Fifth International Trade Seminar will be held next Thursday at St. Augustine Seminary. The seminar will begin at 9 a.m. and will conclude with a luncheon at 1:30 p.m.

DISTRICT MEETING
Bay St. Louis Commissioner Andre Arceneaux attended a district meeting in Biloxi last night, of the Mississippi Municipal Association, along with municipal officers and attorneys of the Gulf Coast area. Arceneaux is a member of the legislative committee of the Gulf Coast chapter of MMA.

SUNDAY SERVICE
Deacons-elect will be ordained at the 11 a.m. service this Sunday at the First Presbyterian Church in Bay St. Louis. Those who will be ordained and installed are: Fred Fisher, William Maldman, Melvin Irving and Orrin Pilkey. The youth of the church will meet at 8 p.m.

Chamber Will Conduct County Cleanup Saturday

How much does a fire cost? How much does a life mean? How little time it takes to prevent a fire.

These were some of the topics discussed at a meeting Monday of the Hancock County Fire Prevention Committee. Committee chairman George Clear has announced final plans for the committee-led Cleanup Hancock County Day this Saturday.

On that day, according to Clear, 80 volunteer firemen will man 13 bush hogs and trucks, donated for the day by the five county supervisors and two mayors, in an attempt to clear all highways, public

roads, streets as well as personal property of hazardous weeds and brush.

Property owners wishing to have property cleared by the volunteer workers may fill out a form at the Hancock Chamber of Commerce office on Highway 90, granting right of entry to the workers. Chamber of Commerce is open weekdays from 8 a.m. until 4:30 p.m.

Work crews will begin clearing operations Saturday at 8 a.m. and will continue until dark. Any areas not completed will be taken care of on the subsequent two Saturdays.

The Hancock Firemen's Association is co-sponsoring the massive cleanup project with the committee and volunteer fire chief of all communities throughout the county will be on hand Saturday coordinating the work crews and activities.

Clear asks all residents of the county and two municipalities to please cooperate in the endeavor by cutting grass and weeds on their own properties.

"If we prevent just one grass fire this year that could destroy your house or your neighbors, we would consider it a wonderful accomplishment," Clear said.

Boy Scouts, under scout leadership will also help the fire prevention groups by ranking, piling and picking up trash and brush that the adult crews cut. The next meeting of the Hancock Firemen's Assn. will be December 10 at 7:30 p.m. at the Hancock Chamber of Commerce office.

Local Store Owners Violate Ordinance

Complaint of a violation of a city ordinance has been filed with the Bay St. Louis city court against one of the owners and operators of Artigues' Package

Liquor Store on Central Ave. L.L. Ward, city electrical inspector, signed an affidavit in September against Ronald Artigues for violation of city ordinance Section 9-10. Ward charged that Artigues had not applied for an electrical permit in construction of the liquor store on Central Ave., and had completed construction of the building without a city inspection. The store is allegedly jointly owned by Artigues and Richard Thames.

Section 9-10 of the city ordinance book refers to unauthorized connection to power, and states that "It shall be unlawful for any person to make connection from a supply of electricity or to supply electricity to any electrical equipment for the installation of which a permit is required, until such connection has been authorized by the electrical inspector."

At a city court hearing September 30, although Artigues failed to appear, his attorney handed a plea of nolo contendere (no contest), or guilty as accused. City Judge Joseph Benvenuti gave Artigues one week to correct the conditions and comply with the requirements of the ordinance. On October 7, Leo Bermond, a local electrician, bought an electrical permit for the liquor store but by press time there still has been no request for a city inspection of the store. City law also requires written authorization from the electrical inspector before electrical service can be supplied to a residence or place of business by the Mississippi Power Co. The liquor store has been open and in operation without a meter for several weeks, which, according to Ward and city building inspector B.D. Johnson, is in contempt of court as well as in violation of the city ordinance.

When questioned as to what course of action he planned to take in the matter, Ward said, "I felt there was nothing further he could do and that it was now up to the court."

The electrical inspector is authorized, by city law, to have the liquor store closed pending compliance with the city ordinance.

Area Churches Plan Thanksgiving Service

An ecumenical Thanksgiving Service will be observed on November 24, at 7 p.m. at Christ Episcopal Church, 912 South Beach, Bay St. Louis. All the clergy and church members in the Bay-Waveland community are invited to participate.

Clergy participating are as follows: Rev. Charles Giles, Valena C. Jones Methodist Church; Rev. Wylie Heath, First Baptist Church, Waveland; Rev. George A. Heffner, S.V.D., St. Rose de Lima Church, Vero; Rev. Gregory Johnson, Our Lady of the Gulf Church; Rev. Charles R. Johnson, Christ Episcopal Church; Rev. Walter L. Maloney, St. Clare's Church; Rev. Perry D. Neal, First Baptist Church, Bay St. Louis; Rev. Leonard Olivier, S.V.D., St. Augustine Seminary; Rev. Ozie Parker, Mt. Chapel Baptist Church; and Rev. R. Bernard Walton, Main St. United Methodist.

Special music will be provided by an ecumenical choir, made up of members of all the churches in the area. Everyone in the area is cordially invited to attend this Thanksgiving service.

There will be a fellowship time immediately following the service in Virginia Hall.

FARM BUREAU HOPES TO

SEND TO EXCISE TAX ON

PICK-UP TRUCKS

It appears that Farm Bureau may be on the way toward winning another important sound in Washington, D.C. In endorsing President Nixon's call for an end to the excise tax on automobiles, Farm Bureau said that the tax on pick-up trucks should also be eliminated. We have learned that the House Ways and Means Committee has agreed with Farm Bureau and has included light trucks in the bill reported out of that committee. Farm Bureau pointed out that pick-ups are frequently used as personal transportation that same as automobiles.

Jacob Named To National Committee

Neville R. Jacob of Bay St. Louis, member of Post 625, Veterans of Foreign Wars, Kiln, Mississippi, has been named to that organization's National Public Relations and Publicity Committee.

Appointed by Joseph L. Vietes, VFW Commander-in-Chief, Jacob's appointment was known this week by Julian M. Kenon, Adjutant General, National Headquarters, Kansas City, Missouri.

The public relations director of the Hancock County Port and Harbor Commission, Jacob was a former Managing Editor of the Sea Coast Echo and serves as Public Relations Officer for Department of Mississippi VFW.

ATTENDING SCHOOL

Edward Friloux, assistant fire chief for Bay St. Louis and Richard Fayard are this week attending a special fire training school in Oxford, Miss., under the auspices of the state fire marshal's office.

Louis and the Bookmobile, have not been returning books on schedule, the trustees today issued a special plea for the return of all books that are overdue.

Miss Alice Prindiville, coordinator of the City-County Library, told the trustees at their monthly meeting on Monday night that the system is losing an average of 600 books every year because library users for one reason or another have not returned the books.

The seriousness of the problem was accentuated when it was pointed out that the small budget of the city county system does not provide for the purchase of 600 new books each year.

During the discussion it was pointed out that this is a problem which is not restricted to Hancock County, but is prevalent throughout the entire United States. To combat the problem various libraries use various systems of getting the books back. New York City, for example, uses various members of the police force to get the books returned; other libraries in Mississippi bill the offenders for the purchase price of the books.

The trustees directed Miss Prindiville to prepare a special letter which will be discussed at

the next meeting of the trustees. All agreed that the local city-county library system has now reached the point where some strong steps will have to be taken to get the books returned back to the system.

Local Government In Action

ED NOTE: This is the ninth in a series of articles by staff writer Adoree Shortle, explaining the various departments of the three local governments - Bay St. Louis, Waveland and Hancock County.

Bay St. Louis Civil Defense

The Bay St. Louis Civil Defense organization has come a long way since the city commission council first appointed J. R. Layole CD director in April 1970.

Prior to that time, the county CD director served the city as well as county and Layole had been a deputy director for the city. In August of this year, a separate Civil Defense department for Bay St. Louis was established by action of the commission council, under a

state CD ruling which states that "municipalities desiring to be jointly served by a county organization may, at their discretion, establish their own organization. Where this is done the organization is administered by said municipal administration."

EQUIPMENT

At the time Layole took over as director, there was no membership in the organization. Little or no structure, and available equipment was negligible. At the present time, the list of CD equipment includes a pickup truck, a cargo trailer, seven emergency power plants ranging from two and a half kw to 30 kw, numerous pieces of emergency equipment such as chain saws, fire fighting equipment, rescue and first aid supplies, portable radios and flood lights.

COMMUNICATIONS

CD headquarters in V. C. Jones School building boasts a communications system which includes 11 modes of communication, all of which can be covered in times of emergency by operating personnel.

Just recently, state CD director Kenneth Causey personally visited the Bay CD office to license that organization for direct communication with the state CD controlled network, KTEB17. According to Layole, the Bay was the first such organization to receive licensing and equipment for that network. Bay St. Louis CD is also on the Gulf Coast intensified emergency network (KBU46), and the hotline connecting all governmental agencies on the National Warning System, covering the entire United States.

On the local level, Layole has set up a complete backup radio

system for all city departments such as police, fire and utilities. In case of breakdown in any one of the systems, that department can immediately maintain communication through the CD equipment.

National Civil Defense authorities maintain that communication is of paramount importance - not only for survival of a community, but under normal conditions, and it is for this reason that so much emphasis is placed by the local organization on developing a complete communications set-up that functions for the city as well as for emergencies.

CD PROGRAMS

Since assuming directorship of the CD organization, Layole's list of programs implemented includes initiation of the first civil defense conference and seminar ever held in the county; a Red Cross sponsored first aid training course; a disaster shelter survey; a free flowing water well study; a Sky-Warn program (tornado watch); free public showings of CD produced disaster films; an evacuation plan analysis and publication; a transportation plan analysis; a Public Safety Program (in progress).

The CD organization as it now operates in Bay St. Louis is so structured as to afford the city complete protection and communication with the outside in time of any disaster. In times of disaster, the CD director takes command of the municipality, exercising complete control over both the administration and law enforcement.

FINANCING

Because of the excellent rating conferred on the city organization by a recent state survey, state authorities have increased the funding potential for the city CD so that ad-

Trumpets In The Morning

by Perry D. Noel, Pastor
First Baptist Church, Bay St. Louis

Arthur Blessitt (minister to Sunset Strip in California) has written a book entitled **TURBID ON TO JESUS**. I am sharing with you two illustrations found in his book. The names of the characters may be different, but in our beloved Bay St. Louis and all along the coast the same situations exist.

Larry was sixteen, tall for his age, well dressed, no hipo. In his voice was the sound of the Oklahoma prairie as we wrapped one night at his Place (Christian Coffee house in L.A.) for more than an hour. He was upright and seemed completely indifferent when I asked him to give his life to Christ.

With no place to crash (from a drug trip) he was still there at closing. I drove him to Norm's restaurant below Sunset Boulevard.

We ate breakfast together but Larry wouldn't tell me why he left home.

He spent the remainder of the night at the restaurant and came back to his Place the next evening.

I believe you're sincere. I want to be saved.

After bringing him to Christ, he told me the obscene circumstances that had led him to the Strip.

His father, a \$50,000-a-year vice president of a helicopter manufacturing company, had raped Larry's fourteen-year-old sister.

Wild with outrage, Larry knew it was either leave home or kill his father.

Larry's father was aware that his son knew about the rape. Nevertheless, we later learned that while Larry was gone his influential father was given free air time on television stations throughout the Southwest. He made a tear-jerking plea for Larry to return home. "All is forgiven," he said straight-faced.

Larry finally returned home when I convinced him that his mother and sister desperately needed his help. And so did his sick father.

A few days after leaving Los Angeles airport, Larry called me to say he was doing fine. His mother and sister, considering the circumstances, were

bearing up as well as could be expected.

He had one other blow news. The father who had raped his daughter had sent Larry to a psychiatrist for an examination.

My father said he couldn't understand why I ran away. He couldn't understand why I was wrong with me.

Jerry, seventeen years old with a straight haircut and sharp, expensive clothes, walked into his Place one day and introduced himself.

He was a wonderfully saved Christian, yet he had run away.

"I left," he explained, "because my mother and dad don't love me. We have a home you wouldn't believe. Big and beautiful, but always filled with people. Parties almost every night. My folks ask me to leave the house whenever they give a party."

They think I don't know what goes on. It's the big orgy after another. The upper crust of our city, politicians, lawyers, doctors, corporation big shots. Everybody gets drunk and every man tries to make out with somebody else's wife. From what I've seen, they don't have to try very hard.

"It made me ill. I couldn't stand any more of it."

"I came out here to be a hippie. I wanted to get away from the money and the hassle."

But Jerry had been on the Strip a couple of weeks and was just as nauseated by the hippie scene once he saw it for the

bummer it was.

"I'm going back," he said. "Becoming a hippie isn't going to solve my problems. The church is the only thing I have at home. I'll try to talk sense to my parents and plead with them to change their lives and accept Christ."

I've never learned if Jerry's parents - his mother was a nurse - changed their lives. I've never learned if Jerry's father, a Pennsylvania superior court judge, became born again. I have prayed often for him and for Jerry.

Let us pray for our youth. God wants to help you Mr. and Mrs. Parent. It is time to accept that help. **STRAIGHT AHEAD!!**

Editor, Sea Coast Echo:

How about the Waveland mayor and alderman? You knocked a good man like the mayor of Bay St. Louis for petty things. Let's get all the real news.

The town of Waveland used four men, two trucks and that big piece of machinery that cost \$9,000 on the two large private lots corner of Coleman and Beach.

They bought all the new office furniture without a bid.

They have over \$18,000 in two new pieces of machinery parked in the open, sometimes under trees. Last meeting I attended, I believe it was \$800.00 repairs on this equipment which is not six or eight months old.

As I attend the meetings, I will report the real news.

Editor, Sea Coast Echo:

We would like to express our appreciation to the Bay High football team and coaches for 10 weeks of complete entertainment.

Never have we seen school spirit so high. Not only do we have a conference champ in the senior high - but also the Jr. High - our spirit band is 2nd to none and this spirit has spread to the entire community.

For the first time in many years, it's as much pleasure to watch our defense operate as the offense. We're very proud of our coaches, the football team (A & B), our band and the entire school spirit. You have made this football season a very special one.

After the Bowl game is over and you begin to look toward graduation in May, we wish all

of you the very best, but then nothing but good can come to you. "Because you are that kind of people."

In the November 4, edition of the Echo, there is a news item "Two arrested on marijuana charges". Are the people aware that Ronald Curet is the son of W. A. "Fred" and the "all powerful" Ruth Curet?

I thank God that we were farsighted enough to make a change on August 3, 1971.

Home Ec Notes

We've Observed

Saving and investing for a "rainy day" may appeal to your sense of thrift. But the modern method is to save and invest for a definite purpose. This may include saving for an education, home ownership, for an emergency fund or for anything else you cherish. With a purpose or goal in mind, you will have more incentive to save and less temptation to spend for less meaningful things.

Each savings and investment pattern must fit your objectives or your family. **YOUR SAVINGS AND INVESTMENT DOLLAR** realistically shows how needs and wants vary among individuals and families.

Short-range and long-range goals differ at each stage of the life cycle, and accomplishing your objectives depends to a great extent on having money available when you need and want it. This becomes a reality only when you work out a spending plan which includes setting aside money for your savings and investment objectives.

TIMING PURCHASES SAVES MONEY

Even the wisest of shoppers may be surprised to learn that timing your purchases can save many dollars. And with rising costs of living we will need to become more astute and long-sighted in our money management.

By planning your purchases of certain items, such as furniture and fuel, for certain months, you can save money. Best times to buy include:

Furniture-April, July, August

Fuel-December thru February, July, August

Men's Clothes-November, December, February, March, July

Women's Clothes-October, November, January

New Cars-November, September

Used Cars-July, February

Shoes-November, December, August

Social Security

Social Security beneficiaries must report certain events to the Social Security Office to protect their interests.

These include changes in address, working for more than \$1680 a year, death, marriage, divorce. In addition to notifying the Social Security office about change and address, the Post Office should also be notified.

That coming off the bridge Bay St. Louis presents such a pretty picture of a well kept town.

That a new piece of machinery has moved a city block and is now in the hands of a new owner.

That the Busy Bess of OIG have done a wonderful job of landscaping the triangle in front of the school.

That only one downtown merchant still has Camille debris beside his store.

That the Bay Mall looks 100 percent improved, thanks to the efforts of one of the Mall's merchants in cooperation with the shopping center's owner.

That there is FINALLY some action on the eyesore across from the Yacht Club.

That the vast majority of our citizens are making that last pre-winter cutting and trimming effort on their properties - including ditches.

This is the time to plant flowering shrubs and trees for next spring's blooming.

That the new street signs look GREAT and what a help for our visitors.

That we've never had so many manicured empty lots - they're like mini-parks.

That our people care about each other.

Social Security Information

Beginning in January, an older person who goes to the hospital under Medicare will be responsible for the first \$68 of his hospital bill - now running about \$800 for the average stay by a Medicare beneficiary.

The present hospital deductible is \$60 and will remain in effect for all Medicare hospital admissions during the remainder of this year.

In announcing the 1972 deductible amount, Secretary Richardson said, "The action I was required to take," Secretary Richardson said, "further emphasizes the urgency of action to put a brake on hospital cost escalation."

He urged early enactment of H.R. 1, the welfare reform bill now pending before Congress, which includes provisions aimed at controlling health care costs, not just for the Medicare and Medicaid programs, but for all consumers.

In addition, he urged early action on the Administration's health program, including the National Health Insurance Partnership Act and Health Maintenance Organization Assistance Act, which also aim at controlling health care costs.

"The general problem of the rising costs of health care," Secretary Richardson said, "is of great concern to the Administration. The rising costs of last year which compelled the action I am taking today illustrate the enormous importance of slowing the rise in health care costs."

He added that "policies designed to curb these rising costs are being addressed in connection with the design of Phase II of the Administration's wage-price stabilization effort."

Soybeans for 1972

Some things that you do now in your soybean fields can make a lot of difference in your 1972 crop.

Apply lime before disking or breaking land. A large percentage of Mississippi land needs lime for soybeans and it is best to incorporate it into the soil during the fall.

Plow under needed phosphate and potash. Soybeans remove a considerable amount of these plant nutrients and residual fertility is important. Subsoil fertility is important. Plowing the fertilizer down has these and other advantages.

Work clay soils in the fall so that weathering and water absorption can improve the structure of the soil. This also makes for earlier planting next spring.

Plow under residue and bury disease organisms. Incorporate Treflan or Planavin. Turn up and destroy johnsongrass rhizomes.

With respect to today's announcement, Secretary Richardson said, the hospital deductible amount is intended to make the Medicare beneficiary responsible for expenses equivalent to the average cost of one day of hospital care.

Under the formula in the law, the new hospital deductible is based on the ratio between hospital costs in the previous year (1970) and costs in 1965; the first year of Medicare operation. That ratio is then multiplied by \$40 and the result rounded to the nearest \$4. The result is an increase from \$20 to \$68.

Secretary Richardson said that when the hospital deductible amount changes next year, the law requires that comparable changes be made in the dollar amounts a Medicare beneficiary pays toward a hospital stay of more than 60 days; or a post-hospital, extended care stay of more than 30 days.

When a Medicare beneficiary has a hospital stay of more than 60 days, he will pay \$17 a day for the 61st through the 90th day, up from the present \$15 per day.

If he has a posthospital stay of over 30 days in an extended care facility, he will pay \$4.50 per day toward the cost of the 21st day through the 100th day, up from the present \$7.50 per day.

If he needs to draw on his "lifetime reserve," the reserve of hospital days a beneficiary can draw upon if he ever needs more than 90 days of hospital care in the same benefit period, he will pay \$94 for each day used, instead of the present \$36 per day.

Small degrees of astigmatism

The Role Of The Optometrist In Visual Development

By Walter C. Russo, O. D.

Last week we were discussing myopia (nearsightedness). I would like to mention that with patients, especially children, who manifest myopia, in many cases the malady could be prevented if parents would have these children examined either at pre-school or first grade level so that preventive measures may be taken. Especially in the developmental stages of visual mechanism, myopia can be prevented in most cases.

In the relationship of the focusing and steering mechanism of the eyes not working in harmony with each other, the central nervous system begins trying to compensate for this stress and then symptoms in the case history will show usually three problems. One, myopia (nearsightedness); two, strabismus (crossing of the eyes); three, the retarded reader or slow learner which I will discuss later. This is why children must be examined before they enter school. It has been my experience over the years when examining children that we do not see these children until they have already manifested the above symptoms.

Asigmatism means the irregular curvatures of the refracting surfaces of the cornea (clear portion of the eye) or the lens (crystalline lens of the eye) located inside the eye ball located behind the pupil and iris. This is where cataract formation will occur. The most common type of astigmatism is the corneal.

Small degrees of astigmatism

will produce symptoms of eye strain and headaches as well as some itching or burning of the eye. Higher degrees will actually change the shape and size of objects and cause more severe symptoms.

I am sure that many of you have read at one time or another about amblyopia. Some months ago an article appeared in the Reader's Digest in regard to blindness due to this condition. The prerequisites for binocular vision are a well developed fovea (this is an area of acute vision on the retina) in which irreflexibility and visual acuity are very much greater than the neighboring portions of the retina. Whenever one or the other foveas have been imperfectly formed the irreflexibility or stimulation of the fovea is much inferior than the other eye, this defect is said to exhibit congenital amblyopia.

The amblyopia that we see most common is the type from disease due to stress in the focusing and steering mechanism not in proper relationship with each other to bring about fusion of the material the eye is viewing. Thereby the weaker of the two eyes will deviate slightly, and after long periods the eye will become amblyopic from disuse. This is called amblyopic exotropia. There are many types of amblyopia besides the two mentioned above, such as amblyopia caused by alcohol poisoning, by hysteria, by tobacco, trauma (injury), uremic attacks and arsenic.

County Welfare Figures

The State Department of Public Welfare handled 147,696 cases during the month of October 1971. Of this number 2,891 were Medicaid cases. The remaining cases were persons receiving assistance through one of the public assistance programs. A total of \$6,636,437.00 in money payments was issued to needy Mississippians.

Mrs. Frances Frankiewicz, County Welfare Director, reported the figures to the Hancock County Welfare Board at its monthly meeting. She reported 55 applications requesting assistance were filed in her office during the month. A breakdown showed 44 Hancock County residents received Medicaid benefits in October. In

the public assistance categories 269 persons received an old age assistance check; 16 received an aid to the blind check; and 92 an aid to the permanently and totally disabled check. In the aid to dependent children category 62 checks were issued.

A total of \$25,231 was spent overall for public assistance in the county; of this amount \$14,411 went to persons in the old age assistance category; \$946.00 to blind recipients; \$4,380.00 to aid to dependent children families; and \$5,514.00 to the permanently and totally disabled.

Mrs. Frankiewicz added there are 80 active child welfare cases in Hancock County and 15 children in licensed foster homes.

Gayaut Receives Honor

Gilbert A. Gayaut of Bay St. Louis is one of six engineering students at Mississippi State University to receive honorable mention in national competition sponsored by the Engineering Design Graphics Division of the American Society of Engineering Education.

Gayaut was a member of the team whose project won the local competition at MSU last spring and was entered in the national contest which was held

at the United States Naval Academy at Annapolis Maryland in June. Results of the competition were announced recently.

The project was completed as part of a Graphic Presentation and Design course in the Department of Engineering Graphics at MSU. Sponsoring advisor for the project was W. H. Eubanks, head of the department.

A junior, Gayaut is the son of Mr. and Mrs. Gilbert D. Gayaut, Jr., 340 Carroll Ave. in Bay St. Louis.

Your friends and neighbors
at Mississippi Power Company
respectfully solicit your vote for
the franchise ordinance
Tuesday, November 16.

Your city officials have adopted an ordinance to grant a new electric franchise to Mississippi Power Company. This ordinance now must be approved by a majority of those qualified voters of the city voting in a city-wide election. The franchise election will be held on **Tuesday, November 16.**

There are many reasons why this electric franchise benefits you and your community, and the following questions and answers may be helpful in understanding more about the franchise and what it means.

Questions and Answers About an Electric Franchise

What is a franchise?

A franchise is an agreement with the municipality under which the Mississippi Power Company conducts its operations within the corporate limits and which provides for the use of streets and alleys for its equipment and facilities.

Does Mississippi Power Company now have a franchise?

Yes. The Company has franchises in each of the municipalities in which it operates. Most of these franchises will expire shortly. In addition, the Company operates under a statewide franchise and under the jurisdiction of the Mississippi Public Service Commission.

Why is the Company asking for a new franchise?

Mississippi Power Company's property is located throughout the area in which it operates. An extensive electrical system has been built in each of the cities which it serves. This property is continuously being expanded and improved. A franchise simply permits the Company to make long-range plans with confidence and to commit large sums of money for new construction and equipment, knowing it has the support of the municipal officials and citizens.

Mississippi Power Company has begun a tremendous construction program to adequately provide for the growing electric power needs of this area. In fact, during the next five years, the Company will double its present investment of \$285 million. Most of this money will come from investors outside of Mississippi who must have confidence in the future of the Company. These investors will attach significance to the fact that the Company has franchises from each municipality in which it operates.

Our employees, who are available to serve you 24 hours a day, will be strengthened in their strong devotion to public service knowing they have a vote of confidence from their fellow citizens and neighbors.

Would the franchise be exclusive?

No. Under the law, the City does not have the right to grant an exclusive franchise to a utility.

Is there any major difference between the present franchise and the new one presently requested by the Company?

1. The proposed new franchise provides for a payment based on three percent of gross revenues from all retail electric power sold within the municipality. The existing franchise payment is calculated on the basis of two percent.
2. The existing franchises were issued prior to the adoption of the 1956 Public Utilities Act and therefore make no reference to the Act. The new franchise recognizes the requirements of the Mississippi Public Utilities Act.

What are the benefits to the community?

A vote of confidence for existing industry will reflect the favorable attitude of the community for private investment and will enhance the community's bid for future industrial growth.

Mississippi Power Company's annual franchise payment is calculated on the basis of the amount of electricity sold within the community. As our sales of electricity increase in the community, the franchise payment your community receives also increases. The Company must have a municipal franchise to legally make payments in the amount proposed.

What would happen if the franchise was not granted at this time?

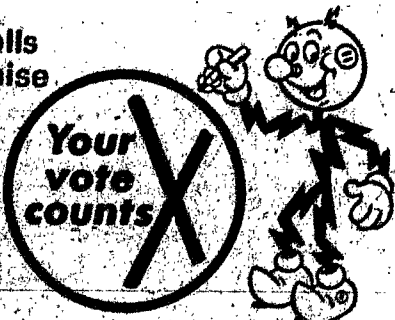

The Company would continue to provide customers in the area with the best possible electric service. However, upon the expiration of the present municipal franchise, the Company would have no option but to lower its franchise payments to that required by the 1956 Public Utilities Act, which is two percent of sales of electricity for residential and commercial purposes only. Our present payments would therefore be reduced substantially, and a valuable source of revenue to the community would be lost. The Company would continue to serve you under its statewide franchise and under the jurisdiction of the state Public Service Commission.

What is the term of the new franchise?

Twenty-five years. This is the same as the existing franchise.

We urge you to go to the polls
and vote FOR the electric franchise
on Tuesday, November 16.

NOTICE OF SUBSTITUTED TRUSTEE'S SALE

WHEREAS, on July 30, 1971, Design Development, Inc., executed and delivered to certain deed of trust in favor of Hancock Bank, Gulfport, Mississippi, beneficiary, Leo Seal, trustee, which said deed of trust is recorded in Book 145, page 162, of the Records of Mortgages and Deeds of Trust on Land in Hancock County, Mississippi, and

WHEREAS, on July 17, 1970, Design Development, Inc., executed and delivered to certain security agreement in favor of the Hancock Bank, Gulfport, Mississippi, and

WHEREAS, on July 22, 1971, the Hancock Bank then and now the owner and holder of said deed of trust, security agreement and the indebtedness secured thereby, substituted Knox White as trustee in place and instead of the said Leo Seal, trustee, strictly in accordance with the provisions of said deed of trust, which said substitution is recorded in Book 154, page 578, of the Records of Mortgages and Deeds of Trust on Land in Hancock County, Mississippi, and

WHEREAS, default has been made in the payment of the note secured by said deed of trust and security agreement and the said Hancock Bank has exercised its option to declare the entire unpaid balance immediately due and payable and has requested the undersigned substituted trustee to foreclose said deed of trust and security agreement and to sell the property described therein in satisfaction of said indebtedness and all costs.

NOW THEREFORE, I, the undersigned, Knox White, substituted trustee, will, on Monday, December 6, 1971, within legal hours, at the main front door of the Hancock County Courthouse in Bay St. Louis, Mississippi, sell to the highest bidder for cash, the following described property situated in Hancock County, Mississippi, to-wit:

Start from the corner formed by Regular Sections 26, 27, 34 and 35, Township 9 South, Range 16 West; thence South 1.75 feet, more or less, to a point; thence East 1.20 feet, more or less, to an iron stake at the Northwest corner of a utility road for the Southeast corner and point of beginning of subject parcel; thence South 44 degrees 23' 59" West 995 feet to a point for the Southwest corner of subject parcel; thence North 44 degrees 33' 02" East 995 feet to a point for the Northeast corner of subject parcel; thence South 45 degrees 33' 02" East 1,400 feet to the point of beginning.

Subject parcel encompasses an area of 91.98 acres and lies partly within the Southeast Quarter of Section 27, Township 9 South, Range 16 West, partly within the Northeast Quarter, Section 34, Township 9 South, Range 16 West; and partly within the Northwest Quarter, Section 35, Township 9 South, Range 16 West, Southeast St. Stephen Meridian, in Hancock County, Mississippi.

And also all machinery, fixtures, equipment and personal property owned by Design Development, Inc., and used in connection with its business operations in Hancock County, Mississippi, unless and except such property as may be subject to a purchase money security interest, and all parts, accessories and additions thereto.

The above described real property will be offered as one parcel and the above described personal property will be offered as a separate parcel and the substituted trustee will later offer the real and personal property as a unit with the latter bid controlling in the event it exceeds the aggregate of the separate bids.

I will convey only such title as is vested in me as substituted trustee.

WHISNANT'S ANTIQUES, formerly the Swap Shop on Highway 90, is now situated at 402 Dunbar Ave. in an attractive cottage. Shop owners Pete Whisnant, left, and Felix Ladner have filled the shop with an excellent collection of antique furnishings as well as fine prints, silver and china pieces. Buying for the shop now is geared toward a higher quality antique to be considered an investment for the purchaser, which is the current trend in the antique market, according to Pete Whisnant. The shop is open every day, except Monday, from 10 a.m. to 6 p.m.

ONLY THE DUST remains on a graceful staircase, still sound after more than 60 years of use.

By Marileen Maher
Echo News Editor

Before the turbulent sixties, only people over forty were afflicted with a strange disease called nostalgia, the desire to return to the "carefree" days of the past. Now even the young are getting into the act and amateur psychologists are saying that nostalgia is here to stay because, after all, the past was much better than the present.

There is, however, a movement to stamp out nostalgia—parking lots are replacing old movie houses, hotels and office buildings. If an old building isn't demolished to make way for a new one, some architects have come up with the brilliant idea of putting nice new modern fronts on old buildings, sort of a "contractor's face-lift."

Soon Bay St. Louis will lose one of its oldest buildings. The Sisters of St. Joseph have announced that the main St. Joseph Academy building on South Beach Blvd. will be torn down.

In 1967, the Sisters were not in a financial position to keep up the building which needed a great deal of repair, so they closed the school after 112 years of educating young women. Due to the damage wrought by Hurricane Camille in 1969, the building is now considered unsafe. Companies have considered it for office space and have regarded it as totally unsuitable for any purpose.

In a statement to the Echo that perhaps reflects the feelings of most of us, the Sisters announce:

"We are aware that S.J.A. holds many memories for the people of this community. We realize the sentiment that some feel about the building since it symbolizes many years of dedication and hard work.

"The shrine and canteen, our first building on the rear of our property, remain as historic sites to be honored and cared for by all of us.

"We want you to know that we feel with you in the passing of this historic landmark and we hope in some way that our continued presence and service among you can lessen the sadness you experience on this occasion.

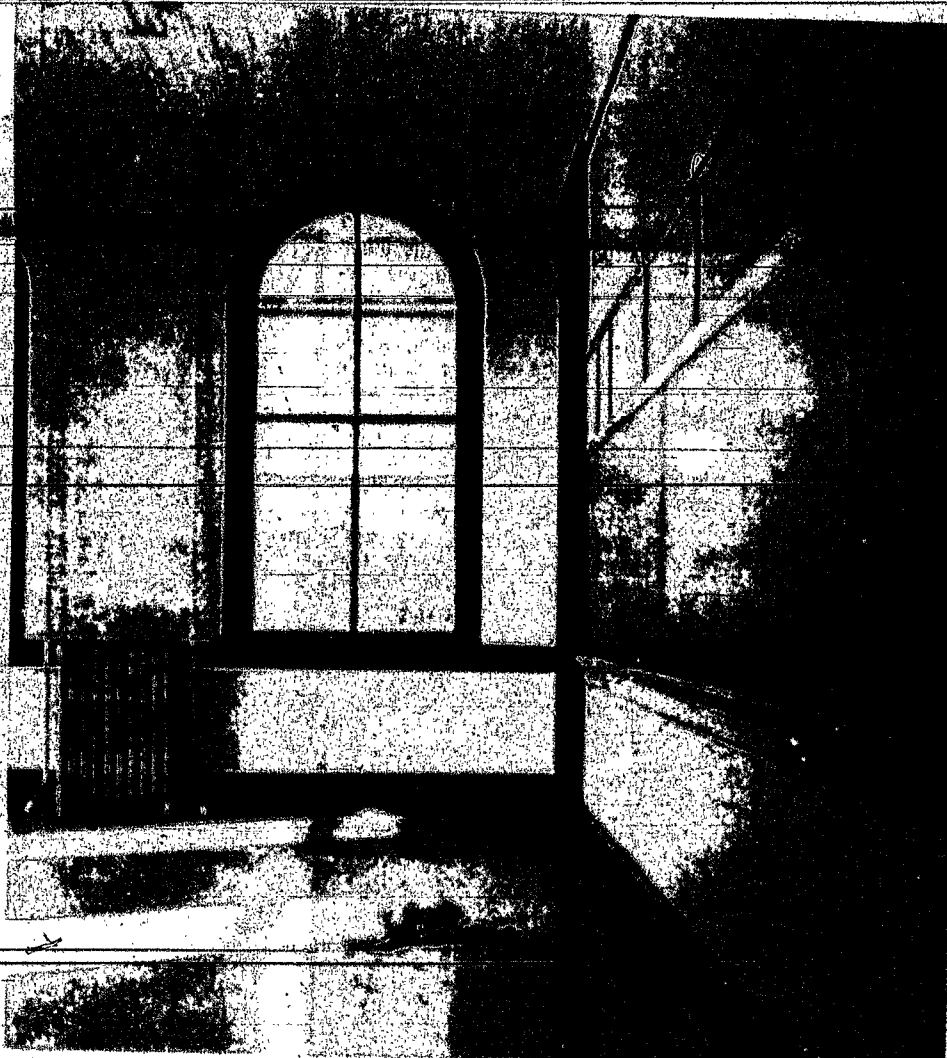

(Echo Staff Photos by

Adoree Shortle and

Marileen Maher.)

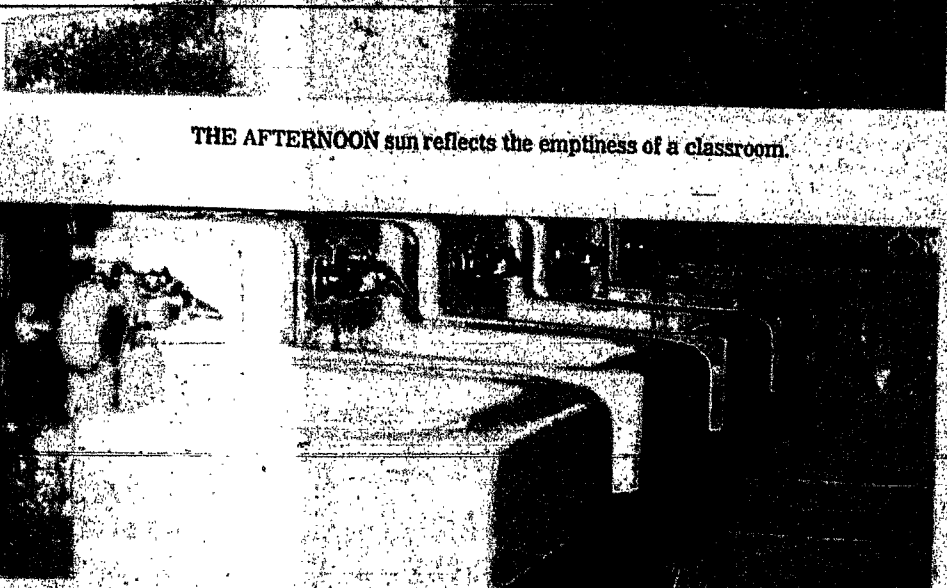

A LITTLE worse for wear, the building stands proudly overlooking the Bay of St. Louis.

THE AFTERNOON sun reflects the emptiness of a classroom.

SILENCE PREVAILS in a corridor that was once filled with the laughter of young people are capable of.

CLEAN WASH basins in the building appear to be waiting for students that will never come.

INFANT BAPTIZED

Vicki Lynn LaFontaine, infant daughter of Mr. and Mrs. Terrell Owen LaFontaine, was baptized October 3, at the Our Lady of the Gulf Church. The Rev. Daniel Gal officiated. Godparents were a paternal uncle, Robert Dale LaFontaine, and Debra Leigh Scianna.

November 4. Featured were movies of the Bears' previous games and a tribute to the "Boys' Fortitude and Endurance" by Coach Tangulis and Very Rev. Gregory Johnson.

Refreshments were prepared and served by a number of fans, otherwise known as "Morn." The value of the athletic program and future plans for continuation of its support for uniforms and equipment were discussed.

Consecration Set Sunday At Trinity Episcopal

(Special to the Sea
Coast Echo by Joe
Fleet, Public Relations
Official)

The Right Reverend Girault M. Jones, D.D., retired Bishop of Louisiana, and now Chancellor of the University of the South, will deliver a sermon Sunday in Trinity Episcopal Church of Pass Christian during the Consecration Service of that edifice which is scheduled for 5:00 p.m. with the Right Reverend John M. Allin, Bishop of the Diocese of Mississippi officiating. Dr. Jones served as rector of Trinity during 1931-36.

The original Trinity buildings, including church, parish house, educational building, and rectory were completely destroyed during Hurricane Camille in 1969; however, Durrie B. Hardin, rector of the church said, "Our church was not destroyed, only the buildings," and he recalled the congregation of Trinity was the first denomination in the area following the storm to gather on the grounds and worship beneath the remaining trees. Rectors from other areas of the Diocese conducted services during the months. The Reverend Mr. Hardin was recovering from injuries sustained on the night of the storm and at which time his wife lost her life.

The architectural firm of J. Buchanan Blitch and Associates and General Contractor W.M. Craig were instructed to duplicate as nearly as feasible the destroyed buildings. Cost of the present buildings ran in excess of \$300,000 and cost of the appointments in excess of \$75,000.00. In addition the Trinity Church has received many gifts including a custom made Wicks pipe organ, jeweled leaded glass windows, pews and appointments. Two of the windows in the sanctuary were donated by the St. Monica Chapter of Women of Trinity in memory of six of their members whose lives were lost during the storm. The bronze plaque beneath these memorial windows contains the names of Mrs. Durrie B. Hardin, A.D. McBryde, Lawrence Nelson, W.A. Lütge, James Bollinger, and George Mayer. A window in memory of Dr. and Mrs. Willis Gayford Clark (rector and wife 1947-53) was donated by the St. Cecilia Chapter. A window is also dedicated to the memory of Stanford B. Morse, who with his twin sons, George and Stanford, Jr., were confirmed during Dr. Clark's ministry.

The bronze corner stone on the present church has the following wording:

TRINITY PARISH WAS FOUNDED 1849. All of its buildings were destroyed by Hurricane 1969. The Present structures are Consecrated to the Glory of God 1971.

A memorial fountain has been erected in memory of Lt. Joe Ebert Allen who was christened in Trinity, served as an acolyte, later as Crucifer, and upon graduation with distinction from Tulane University held offices in Alpha Tau Omega, and entered the Marine Services. He gave his life during conflict in Vietnam and was awarded posthumously the Silver Star.

Approximately 2,500 invitations have been mailed and the congregation of Trinity wishes it announced that anyone who would like to come to the service is cordially invited.

A reception in the Parish House immediately following the Consecration will be hosted by women of the Martha Chapter. The Martha Chapter was founded by the late Martha Witherspoon, wife of the late J. Barkley Witherspoon, to include the younger women of the church.

TRINITY EPISCOPAL Church in Pass Christian has been completed and will be consecrated this Sunday. The new church closely resembles the structure destroyed by Hurricane Camille in 1969.

(Echo Staff Photo by Marileen Maher)

Of interest is an old Celtic Cross, made of cypress and a part of the salvaged materials from the original church. This cross has been weather-proofed and affixed to the Parish House. Also hanging between the church and breeze-way is one of the original church doors. The door saved in place as a pattern in design the other doors, according to the architects.

About eighty percent of the altar vessels were salvaged, reworked and will continue in use as well as the complete silver communion service.

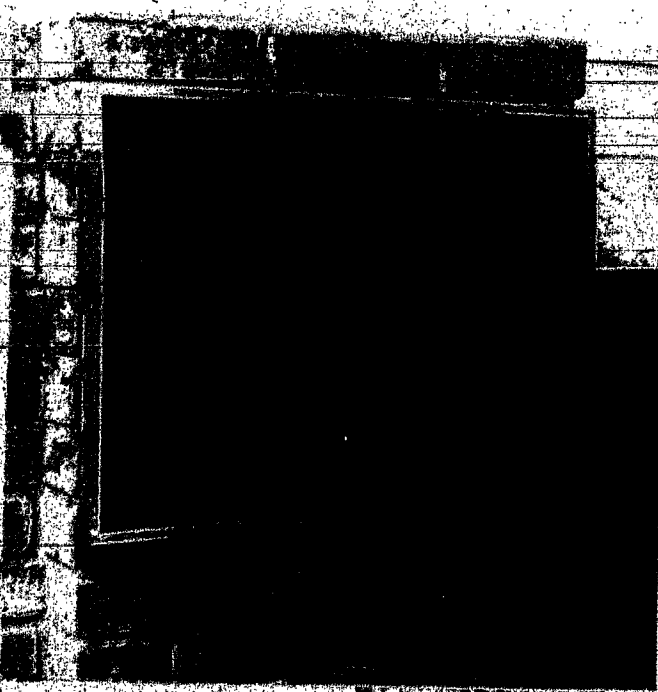

Paul Williams, sexton of the church at the time of the hurricane still serves, however, his wife, 10 children and two grandchildren lost their lives on the night of the hurricane as they took refuge from the storm in the parish house. Falling trees and rising water trapped them in this building.

The original Trinity Church was built in 1849, but it was a year and four months before it was ready for consecration on July 31, 1851. Land on which all of these buildings were erected was a gift from John and Louisa Henderson, for whom Henderson Point was named. In dedicating the ground which includes Live Oak Cemetery the Hendersons made a request that the back portion of the cemetery be free interment for both blacks and whites. This deed was recorded October 23, 1851. Another specification in the deed to all the grounds was that if it be used only for church oriented purposes.

At the time of the Hurricane Camille, Trinity had 450 communicants. Presently there are only half that number, or approximately 225.

Last Sunday the final communion service was held in the temporary trailer-church at which time the new schedule for services beginning with Sunday, November 21, were announced as Early Communion 8:00 a.m. Family Service at 10:00 a.m. and Evening Services at 5:00 p.m. Reverend Hardin also invited communicants of Trinity to join in a Communion Service at 8:00 p.m. on Sunday. "This will mark the final part of our services prior to the consecration," he explained. Although there be no live television program showing the consecration, both T.V. stations WDSU and WLOX will present programs at a date and time to be announced later in order that shut-ins and others unable to attend the service may view the procedure.

POLICE REPORTS

Bay St. Louis police received and responded to 45 calls in the period between Nov. 2 through 10.

No one was injured in a two-car collision at Murphy's Drive. In Nov. 3 and neither driver was cited by investigating officers Emmett Ellis and asst. chief Douglas Williams.

Ptn. Alvin Favre investigated another collision involving two cars on Highway 90 the same day. There were no injuries reported.

A burglary was reported at the Yellow Bird Lounge Sunday, in which a number of items were stolen including \$40 in change, a woman's wrist watch, ten cartons of cigarettes and a case of beer. Ptn. Harris Boudreaux answered the call and police are investigating evidence gathered at the scene.

Electrical wires and a meter were damaged on A.C. Mitchell's residence on de Montluzin St. by a Dollar General Store delivery truck. The truck was attempting to turn onto de Montluzin from Second St.

Bay police received a report Sunday from the Gulfport police dept. of a motor bike stolen from a residence in Gulfport. Police there had reason to

believe the bike was being brought to the Bay area.

Two front wheels and tires were stolen off a 1965 Mustang parked at St. Augustine Seminary some time Tuesday evening. Chief Robert Goodsell and asst. chief Douglas Williams are investigating fingerprints and other evidence found on the automobile.

The two rear wheels as well as tires were stolen from an automobile belonging to Mrs. Edward Herndon Sunday. The car was parked in front of 216 N. Beach Blvd. and the theft was discovered in the morning. Chief Goodsell and ptn. Boudreaux are investigating evidence found at the scene.

Statement Ambiguous

A statement concerning city tax assessments, in the Local Government in Action series last week was ambiguously

worded. In explaining the city tax assessment system, the article stated "a parcel of land" has a market value of \$2,000. The city tax assessment would be 30 percent, or \$600 that the property owner pays annually.

The \$600 figure is not the amount assessed. The assessment figure multiplied by the millage as set by the commission council, is what determines the actual amount paid by the individual.

BUSINESS NOTES

Don Sanders has taken over management of the Texaco station at Highway 90 and Dunbar Ave. Now called Don's Texaco, the station will be open 24 hours.

Tigers Take Title

The Bay High Tigers shutout the Ocean Springs Greyhounds in Ocean Springs last Friday night and in so doing became

The Bay High Tigers, Gulf Coast Conference Champions, have signed a contract with the Bay St. Louis Jaycees to play in the annual Jaycee Bowl game on November 19. Their opponents will be announced at a later date.

The 1971 Gulf Coast Conference Champions, The 34-0 victory over the Greyhounds concludes the Tiger's regular season with a 9-1 season record.

The Tigers dominated the game, scoring in every quarter and allowing no points to the Greyhounds. The first score

came late in the first quarter when Eric Lymuel climaxed a 35-yard Tiger drive with a 12-yard touchdown run. Eric Lymuel intercepted a

Greyhound pass in the second quarter to set up a 53-yard drive that enabled Mike Lymuel to score from two yards out, ending the half 12-0.

The Tigers started the third quarter with two touchdowns in 26 seconds. Fred Bilbo intercepted a Mike Bruno pass

and ran 40-yards for a touchdown. Blake passed to McFarland for the two point conversion. The Tigers then kicked off to the Greyhounds again. Bruno was again intercepted, this time by Eric Lymuel who took the ball at the Greyhound 42 and ran it in for six.

Late in the fourth quarter the Tigers drove 83-yards in 17 plays to set up a 20-yard pass play from Bilbo to Fabian Collins for the Tigers last touchdown. Eric Lymuel ran for the two point conversion to give the Tigers a 34-0 shutout over the Ocean Springs Greyhounds.

Junior Tigers Also Champs

Friday night the Bay Jr. High Tigers beat Ocean Springs 14-12 to gain the Gulf Coast Conference title.

The Tigers were led by the running of David Grace and the

Bears Tie

St. James

The much improved O. L. G. Bears battled the St. James Trojans of Mississippi City to a 6-6 tie. This was the same Trojan team that defeated the Bears 56-0 in the opening game of the season.

The Bears' rally came through a return reverse of 70 yards by Bill Kergosien. Coach Ronald Tangus of the Bears was elated over the work of his defensive team and had special praise for Mike Rosato, Bruce Morreale, David Wittman, Steve Treutal, Bill Kergosien and Greg Hamner.

Marty Tangus had a fine day in the passing department, completing passes to Kevin Martinovich and one to Kelly Gieroux. This gave Tangus three completions for four attempts. Rushing leaders for the Bears were Mike Rosato, Bobby Fayard, and Bill Kergosien. Next home game for the Bears will be Friday night at 7:30 p.m. at SSC Stadium. They will play Sacred Heart of Pascagoula. These two teams met earlier in the season with Sacred Heart coming out on top, 2-0.

FAIR DINNER

St. Clare's Parish Fair victory dinner for all who worked towards making the annual fair a success, will be held from 12 noon to 3 p.m., Sunday, November 14, in Costello Hall. All fair workers are invited to attend.

Judo Tournament Set At Southern

An interstate judo tournament and clinic will be held Saturday and Sunday, Nov. 13, starting at 10 a.m. each day, at the University of Southern Mississippi Sports Arena.

The tournament is being sponsored by the USM Judo Club, the Hattiesburg Recreation Department Judo Club, and the Dixie States Judo Association and is sanctioned by the Southern AAU.

Participants must have current AAU membership. The tournament is open to the public with a 50 cents donation requested.

Prof. Ryozo Nakamura, sixth degree Black Belt, will assist with the clinic on Sunday. Jon Hi Song, former Korean Collegiate Champion also plans to attend.

Tiny Rocks Take Game

From Raiders

The C. E. H. S. Raiders gave a hard-won game to the St. Stanislaus Tiny Rocks in an 8-0 gridiron battle last Wednesday at Stanislaus Stadium.

Mainly it was a defensive game. The Raiders had an outstanding goal line stand in the second period. The Tiny Rocks tried twice to make a score, but were pushed back by the Raider defense. Tiny Rocks succeeded on a third try for a score in the fourth period. In the last few minutes of the game the Raiders made a drive down to the Stanislaus' eight yard line but ran out of time.

Next Saturday the Raiders take on the St. Clare's Warriors at Bay High Stadium at 10:00 a.m.

Dr. Lora Friedman, associate professor of curriculum and instruction at USM, is tournament director. Holder of a second degree Black Belt, she is active in judo on the national level, being secretary of the National Teachers Institute of the U.S. Judo Federation and vice chairman of the AAU Standards Committee.

Judo is a collegiate sport, a high school sport, and an Olympic sport, said Dr. Friedman. "The enthusiasm for judo which has come from campus and community participation speaks highly of its worth as a sport for all ages. It has provided mental and physical exercise and development for a number of participants, many having this as their only form of exercise or recreation."

"Because individual limits and capacities determine the amount of participation, even those who are handicapped may participate. A member of the USM Judo Club recently promoted to Sankyu, third degree Brown Belt, has multiple sclerosis. The philosophy of judo is found in its meaning, 'The Gentle Way.'"

Schedule for the weekend's activities:
Saturday: 9-9:30, junior weight-in; 10 a.m., junior contest; 12:30-1 p.m., senior weight-in; 1:30 p.m., senior contest; 7 p.m., dinner at the University Commons. \$1.75 tickets with advance reservation required.

Hawks Defeat Rocks 26-14

The Hancock North Central Hawks defeated the St. Stanislaus Rock-a-Chaws last Friday night at Hancock to avenge the loss they suffered at the Rocks earlier in the season.

The two teams traded touchdowns in the first quarter. Stanislaus was first to score following a 50-yard run by Rock-a-Chaw halfback Robert Florie. The Rocks scored four plays later when James Moore scored on a two yard run. Stanislaus quarterback David Worrel carried the ball over for a successful two point conversion. Later in the first quarter Bruce Staten scored for the Hawks on a one yard dive. The point after attempt failed. Hancock scored again in the quarter on a three yard run by Dale Lee. Bruce Staten carried the ball on the successful conversion attempt.

Late in the second quarter David Worrel passed to his split-end Randy Foreman for a substantial gain. Worrel then

took the ball in on a keeper. The point after attempt failed and the half ended in a 14-14 tie.

The Hawks picked up two touchdowns in the second half to win the game 26-14. Harvard passed to Ernest Keys for the first score in the third period. O'Neill Cuevas picked up the final score in the fourth quarter with a 12 yard run.

This was the Rocks last game of the season, while the Hawks meet East Central for the Hawks' Homecoming.

Yacht Club Wins Frostdite Regatta

Bay-Waveland Yacht Club's skippers and crews took top honors at the annual Frostdite Regatta held at Pass Christian Yacht Club November 6 and 7th.

The first race in the GYA Flying-Scot-Class was won by Marc Eagan and his crew Mary and Kay Kergosien. Woody Stieffel and his crew, Chip Merlin and Marc Eagan won the second race. The final race was won by Don Chamberlain and his crew Walt Chamberlain and Marc Eagan, giving Bay-Waveland a complete victory for the series.

Harry Chapman of BWYC won the Open Flying Scot Class, finishing fourth, first and second in the three races. Charles Staehle, BWYC, won the first race of the Open Flying Scots and Ray Stieffel, BWYC, finished third overall in the Open Scot Class. Dee Coffey, BWYC, earned a second place in the Sunfish Class.

The 1971 Frostdite Regatta is the first event to be held in the newly opened Pass Christian Yacht Club, constructed on the site of the former clubhouse which was totally demolished by Hurricane Camille.

The second cold front of the fall season hit this area early Sunday morning. At 6 a.m. the thermometer registered 58 and got colder. This weather was welcomed since the temperature for a few days last week reached 80 and 85 degrees. Warm weather is O.K. for certain kinds of fishing but cold weather brings in speckle trout, red fish and other salt-water fish. Put a snap in the air and pep for hunting.

With the squirrel and rabbit seasons open and the dove season opening on Nov. 20th, hunters will have enough to keep them busy for some time to come. About to forget the opening of the duck and geese seasons the end of this month. Blinds have been built, sites selected, while hunters are only awaiting the opening day. Ducks and geese are being seen heading this way and for the marshes where most waterfowl hunting is done. There will be some ducks and geese killed in local ponds and lakes only for the first week or so until they move further south.

Green trout fishing also improves with cooler weather when they are caught by trolling with under-water bats. So far they have been hitting surface-baits, popping bugs and plugs. Perch usually let down during the winter time.

Speaking about green trout, Raoul Telhird and the Misses have been making some nice catches, and large ones, with live shrimp and minnows. They fish mostly up Jourdan River. Both are good when it comes to catching them.

Trolling for speckle trout should start soon. Trolling is easy and pays off when the fish are striking. Some good places to troll are up Jourdan River, Bayou Caddy, Pearl River and Mulatto Bayou. Baxter's Camp at Pearl River, Bordages' Camp on Bayou Caddy and Kelly's Camp on Mulatto Bayou are places where boats can be rented.

Harlan Watkins has been catching speckles and other salt water fish out in front of the seawall down Bayou Caddy way. Harlan knows the ropes when it comes to catching 'em.

BE IT ORDAINED, by the Commission Council, herein called "governing body," of the City of Bay St. Louis, Mississippi:

SECTION 1. In consideration of the benefits that will accrue to the City of Bay St. Louis, Mississippi, and the inhabitants thereof, (herein called "Municipality"), and of the payment by Mississippi Power Company, (herein called "Grantee") to the Municipality of a sum of money equal to three percentum (3 percent) per year of the total revenue of the Grantee from the sales of electric energy, excepting therefrom sales for resale and sales to interchange of energy with others, within the corporate limits of the Municipality, or the sum of

Three Hundred Dollars (\$300.00) per year, whichever is the greater, payable quarterly on or before thirty days following the close of each calendar quarter during such period as the Grantee operates in said Municipality, but not to exceed twenty-five (25) years from the effective date of this Ordinance. Municipality does hereby grant to and vest in the Grantee, its successors and assigns, the right, authority, easement, privilege and franchise to construct, erect, suspend, install, renew, repair, maintain, operate and conduct in the Municipality as it now exists or may hereafter be extended, all plant and system for the generation, transmission, and distribution of electric energy for all purposes whatsoever.

Section 2. Municipality does hereby give and grant to, and vest in, Grantee, its successors and assigns, the further right, authority, easement, privilege and franchise to construct, erect, suspend, install, renew, repair, maintain, operate and conduct in the Municipality a system of poles, towers, conduits, cables, conductors, transforming stations, fittings and all appliances or appurtenances necessary or desirable to the transmission, distribution, or sale of electric energy for all purposes whatsoever, in, over, under, along, upon and across all streets, avenues, alleys, ways, bridges, and public places in the Municipality as they now exist or may hereafter be laid out or extended, together with the further right, privilege, and franchise to construct, erect, suspend, install, renew, repair, maintain and operate such poles, towers, conduits, cables, conductors, transforming stations, fittings and all appliances and appurtenances necessary or desirable to the transmission within, into, through, over, and beyond the Municipality and to the inhabitants and corporations both within and beyond the limits thereof, electric energy for lighting, heating, power and all other purposes for which electric energy may be used now or hereafter, and for the purpose of extending its lines and furnishing electric energy beyond the limits of the Municipality.

SECTION 3. The poles, towers, conduits, cables, conductors, transforming stations, fittings, appliances and appurtenances shall be so constructed as not to unreasonably interfere with the proper use of the streets, avenues, alleys, ways, bridges and public places in the Municipality and shall be maintained in a reasonably good condition and repair.

SECTION 4. Whenever the Grantee shall cause any opening or alteration to be made in any of the streets, avenues, alleys, ways, bridges or public places in the Municipality for the purpose of installing, maintaining, operating, or repairing any poles, towers, conduits, cables and other appliances, the work shall be completed within a reasonable time and the Grantee shall upon the completion of such work restore such portion of the streets, avenues, alleys, ways, bridges or other public places to as good condition as it was before the opening or alteration was so made.

SECTION 5. The Grantee shall hold the Municipality harmless from any and all liability or damages resulting from the negligence of the Grantee in the construction, maintenance, or operation of its poles, towers, conduits, wires, cables and other appliances.

SECTION 6. The Grantee may from time to time, declare, make and enforce reasonable rules and regulations as conditions for the sale and

distribution of electric energy to any person, firm, or corporation, not, however, in conflict with or repugnant to the jurisdiction of the Public Service Commission of Mississippi under the provisions of Chapter 372, Mississippi Laws of 1956, as amended.

SECTION 7. In the event the supply of electric energy shall be interrupted or fail by reason of accident, or otherwise, beyond the control of the Grantee, the Grantee shall restore the service within a reasonable time and such interruption shall not constitute a breach of this franchise, nor shall the Grantee be liable for damage by reason of such interruption or failure.

SECTION 8. Wherever in this Ordinance either the Municipality or the Grantee is named or referred to, it shall be deemed to include the respective successor, successors or assigns of either, and all rights, privileges and obligations herein conferred shall bind and inure to the benefit of such successor, successors, or assigns of the Municipality or of the Grantee.

SECTION 9. This franchise in addition to and supplemental to any and all such rights as the Grantee may have by virtue of the provisions of Chapter 372, Laws of Mississippi of 1956, as amended, and any other section of the Mississippi Code of 1942, as amended, and its acceptance and exercise by the Grantee shall never be construed as a waiver nor abandonment of nor as a limitation upon the rights now vested in or being exercised by the Grantee under any statute or law of the State of Mississippi. Nor shall the granting of this franchise be construed or operate to abridge, impair, or deny the validly held rights of any other distributor of electric energy within the Municipality, or portion thereof, by virtue either of a franchise from the Municipality or a certificate of public convenience and necessity issued pursuant to Chapter 372, Laws of Mississippi of 1956, as amended.

SECTION 10. The rights hereby granted shall become effective upon the passage of this Ordinance and continue for a period of twenty-five (25) years thereafter.

SECTION 11. If any clause, provision or section of this Ordinance is illegal, void, or unenforceable, the same shall not be construed to invalidate the remaining provisions hereof which shall have full force and effect.

SECTION 12. The Grantee shall pay the Municipality the cost of publishing this Ordinance according to law and also the cost of holding an election for the approval or disapproval of the qualified electors of the Municipality of this Ordinance.

SECTION 13. This franchise is in lieu of and supersedes a franchise granted to Grantee by the Municipality by Ordinance dated February 17, 1947, recorded in Minute Book 5, pages 552-555, and Ordinance Book 3, pages 339-341 of the effective date of this Ordinance.

SECTION 14. This Ordinance shall not become effective until it is duly passed by the governing body, published as required by law and approved by a majority vote of qualified electors of the Municipality voting thereon at a special election duly called and held as required by law.

The within and foregoing Ordinance, having been introduced in writing and read by the Clerk at a regular meeting of the aforesaid governing body of the Municipality and having thereafter remained on file with the Clerk for public inspection for a period of at least two weeks before the final passage or adoption thereof was read and considered by sections at a public meeting of the said governing body in the form in which it was introduced and upon motion of Commissioner Arceneaux, duly seconded by Mayor Carver, that it be adopted, a final Yes and Nay vote was taken which resulted as follows:

Voting Yes: Warren Carver, Mayor; Andre Arceneaux, Commissioner; Wm. M. Frisbie, Commissioner.

Voting Nays: None.

Whereupon, the motion was declared carried and the ordinance declared adopted.

APPROVED this 4th day of October, 1971.

Sportsmen, especially deer hunters, should remember that it is illegal to hunt from or shoot across any street or public road. Game Wardens can enforce this law and a fine of up to \$500 or imprisonment to 90 days can be levied against violators. It has long been a custom in many areas of Mississippi to line old back woods roads while dogs or drivers push deer across their rights of way.

Wop Glover was over from New Orleans Saturday. Visited his old hunting buddy, Norman Benigno. They plan to take a week off and do nothing but dove hunting. What's any better?

A group of fishermen went on a fishing trip over the weekend with Capt. Tom Cain on his boat "The John Mayor." They were Uncle Bud Seifer, Norvin Fayard, and two sons, the Captain's son and a friend. A bunch of various salt water fish were caught mostly ground mullet and white trout. Water was rough and Saturday night was pretty cold, said Uncle Bud. The "John Mayor" is a 60-ft. boat, ideal for going in outside waters and for fishing parties.

John Glover, son of Cyril Glover, was over from Pascagoula Sunday visiting friends. Too busy to go fishing, he said.

Library To Celebrate Children's Book Week

National Children's Book Week, being celebrated throughout the country November 14-20, 1971, has as its theme "Read-In '72." Children's Book Week originated in 1919 and was first sponsored by American Booksellers Association. One of its early supporters was Frederic Melcher, then secretary of ABA, who described the crucial goal of Book Week in this fashion, "Book Week brings us together to talk about books and reading and out of our knowledge and love of books, to put the cause of children's reading squarely before the whole community and, community by community, across the whole nation. For a great nation is a reading nation."

LET'S HELP

and in this broad country of ours, books should be freely available for every boy and girl. Until they are freely available we have a great task." This summary, though written over 50 years ago is remarkably appropriate today.

In Hancock County, there are books freely available to every boy and girl in the City-County Public Library, the Waveland Library and the Bookmobile. It is therefore the purpose of the library during National Children's Book Week to encourage children to visit the library and join "Read-In '72."

City-County Public Library hours are: Monday-10:00 a.m.-6:00 p.m.; Tuesday-12 noon-5:00 p.m.; Wednesday-10:00 a.m.-6:00 p.m.; Thursday-10:00 a.m.-6:00 p.m.; Friday-10:00 a.m.-6:00 p.m.; Saturday-9:00 a.m.-12 noon. Waveland Library: Monday-10:00 a.m.-6:00 p.m.; Friday-10:00 a.m.-6:00 p.m.

Heart Fund Names Memorial Gifts Chairman

Mrs. D.A. Treutel of Bay St. Louis is the new memorial gifts chairman for the County Heart Association.

"Heart memorial giving is an excellent means of paying tribute to a deceased friend or relative. Such recognition is remembered and appreciated long after more perishable gifts are discarded or forgotten because contributions are

directed toward the conquest of heart disease, the state's leading killer," Mrs. Treutel said. "Each heart memorial goes to support a research project on cardiovascular disease at the University Medical Center in Jackson. What a wonderful way to help support these dedicated young men and women in their search for the cure and prevention of heart diseases."

Memorial gifts may be mailed to Mrs. D.A. Treutel, 132 St. Charles, Bay St. Louis, Miss., or phoned in to 467-4913. An appropriate acknowledgement, which does not mention the amount, is sent promptly to the bereaved family and an official receipt returned to the donor.

F.H.A. Group Elects Officers

On November 3, the fourth period Housing Class at Bay Senior High School held its organizational meeting for the F.H.A. The newly elected officers are president, Peggy LaFontaine; vice president, Ellie Marquez; secretary, Kim Bell; treasurer, Pam Lyon; parliamentarian, Gwen Ferrell; song leader, Ellen

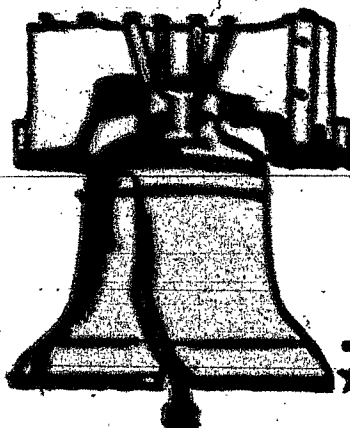

McCauley; and reporter, Diane Bourgeois.

Other members include Schwaner Bell, Peggy Fewell, Cathrine Haydel, Lillian Hayes, Paula Johnson, Diana Kidd, Louise Ladner, Paul Lemay, Pam McCreery, Denise Parsons, Janet Payne, and Jan West.

An Inspiration to all Americans

Volumes have been written about Edison's contributions to mankind, his remarkable physical and mental powers, his inventive genius. But did he possess genius as we commonly define it? If genius is as Edison himself defined it, "one per cent inspiration and 99 per cent perspiration," the answer is yes.

For his inventions were not conceived in a flash of inspiration or by stumbling upon a truth by sheer dumb luck. They were fashioned painstakingly through endless hours of trial and error research and experiment. To find a needle in a haystack, Edison would have removed each wisp of hay from the pile.

The works of the man who would not recognize failure will long stand as a monument to his philosophy. Failure of an experiment to achieve a desired result was never discouraging. It meant only that he knew another combination that would not work.

Thus, with every "failure" he gained new knowledge. To appreciate Edison fully, this philosophy must be understood. It is the reason for his infinite patience and perseverance, and the key to his success.

It's America's most popular! Why?

We think it's excellence of product. Years and years ago, when we decided to bake Jane Parker Fruit Cake, we also decided to bake the best. That's why Jane Parker Fruit Cake was then and is today over 23 fruits and nuts.

Just enough cake to hold together the bounty of imported and domestic cherries, pineapple from the Far East, citron from the Caribbean, sun-drenched raisins from California and meaty pecans from the South.

We think, too, that value has made it popular. IMAGINE, THE 1-LB. CAKE COSTS ONLY \$4.99. That's dollars less than you might expect to pay for such a fine fruit cake.

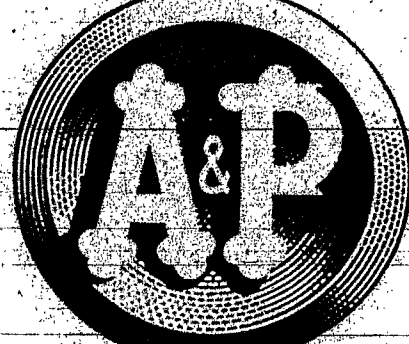

Now you know why Jane Parker Fruit Cake is America's most popular. One other thing you should know: You can buy it only at A&P.

P.S. Wouldn't it make a great gift for someone?
